

SCALA

In order to take advantage of the high stability of palm olein and prolong the time it remains clear, we have blend the Double Fractionated Palm Olein with other Soft Oil. It does not cloud at low temperature and of course it is suitable for temperate countries. Due to its low melting properties, its gives a better mouth feel, better product gloss and being fluid.

Also Available:

100% Sunflower Oil

100% Soybean oil

100% Corn Oil

100% Canola Oil
